

Dry Dock Specification

Repair-specification framework for planned dry-docking. Number each item for yard quotation.

1. General

Vessel particulars, docking dates, scope summary, class survey items due, owner representatives, and general yard services (cranage, staging, gas-freeing, waste disposal).

2. Docking & Undocking

Docking plan, blocks arrangement, propeller/rudder clearances, draft & trim on arrival.

3. Hull & External

High-pressure wash, scraping, anode renewal, sea-chest/grids cleaning, hull gauging, weld repairs.

4. Tanks, Voids & Bilges

Cleaning, gas-freeing, inspection, coating repair, pressure tests.

5. Machinery & Electrical

Main engine/aux overhauls, shafting, valves, pumps, switchboard checks.

6. Painting Schedule

Area	Surface Prep	Coating System	No. of Coats	DFT (µm)
Underwater hull				
Boot-top				
Topsides				
Decks				

7. Safety & Owner-Supplied Items

Hot-work/enclosed-space permits, fire watch, owner-supplied spares list.
