

Voyage Plan (Berth-to-Berth)

Berth-to-berth passage plan covering appraisal, planning, execution and monitoring.

1. Appraisal

Charts & publications, weather/routeing, draft/UKC policy, ECDIS settings (safety contour, safety depth, CATZOC), no-go areas, reporting points (VTS), pilotage and tidal windows.

2. Planning — Waypoint Table

WP	Latitude	Longitude	Course (°T)	Distance (NM)	Speed (kn)	ETA	XTD / Remarks

3. Execution

Speed adjustments for ETA/tidal windows, condition of vessel/machinery, reliability of navigational equipment, contingency anchorages.

4. Monitoring

Fix frequency, cross-track limits, parallel indexing, ECDIS alarms, watch handover and bridge resource management.
